

Syllabus for SPCH 101-30 – Public Speaking

At a Glance: Students in this class will deliver and evaluate several impromptu and graded prepared presentations through the course of the semester in order to improve their public speaking abilities.

Course Description

SPCH 101: Public Speaking: Speaking clearly and comfortably in public is an essential skill set. This course prepares students for a variety of professional situations in which formal presentations are expected. Topics will include cultural conventions of speech, verbal and nonverbal messaging, and techniques of oral presentation and persuasion. Students will learn to research, outline, and deliver a variety of speeches (e.g. demonstrative, informative, persuasive, special occasion, etc.) of varying lengths.

There are no prerequisites for this course, but **students who need to complete ENGL 100 are strongly encouraged to complete it prior to taking this course.**

Philosophy

Speaking in public is a skill that only improves as it is used. Teaching public speaking has a lot in common with coaching. This course is designed around a view of presenting as a process. The class encourages students to reflect on, engage with, and improve all stages in that process, from preparation and research through outlining, practice, presentation, and self-evaluation.

Goals

At the end of this class, students will have developed improved competencies in the following major areas:

- Preparing Presentations
- Research
- Organization
- Verbal and Nonverbal Delivery
- Preparing Visual Aids
- Critical Evaluation of Presentations

Course Information

SPCH-101-30 (7957)	Public Speaking
Block:	3
Starts:	2017-08-14
Ends:	2017-12-09
Meets every:	Wednesday
Meets between:	8:30 AM – 11:30 AM
Building:	Annie Hogan Byrd Fine Arts Center
Room:	46

Instructor Contact Information

Kurtis D. Miller

- Office: Virginia 311
- Office Hours:
 - 9:00 am – 11:30 am, Tuesdays
 - 9:00 am – 11:30 am, Thursdays
 - also by appointment
- kdmiller@tusculum.edu
- 423-636-7300 Ext. 5783

Availability

I am available in person during office hours, and by appointment in addition. My office hours are scheduled for your benefit, but some students go an entire semester without stopping by. I like students! Feel free to come by for any reason or no reason at all – even after you’re done taking the class. I am more than happy to talk if you see me around campus. If you see me when I am out for a run I will not slow down to talk to you – you’ll have to keep up! :-)

Email

I check and respond to my email once each day, except on the weekend and holidays. I do not check my email at the same time every day, so I cannot guarantee a response within a strict 24-hour window. Sometimes messages do fall through the cracks or are zapped by overzealous spam filters – if I have not replied after a few days, please re-send the message. You can also call when I am in the office. I typically distribute class announcements through a class email distribution list.

I do not accept assignments by email. Unless otherwise directed, do not email assignments to me. Submit all assignments through the course management system or in print as directed, unless you are given specific instructions to do something else.

Required Materials

Checklist:

- Textbook
- Index cards
- A flash drive
- Writing utensils
- Access to a video recorder
- Access to a modern computer and common software
- Access to the Internet
- A YouTube account

Required Textbook: This course requires you to have access to “A Speaker’s Guidebook” (O’Hair, Stewart, & Rubenstein). 5th or 6th edition are both acceptable. Copies are available at the campus bookstore and online through a number of retailers, including [Amazon](#). You will need access this textbook in order to successfully complete the course. The textbook is very affordable, and there is a copy of the textbook on reserve in the library for you to use if you do not wish to purchase a copy or are waiting for one to arrive. I do not assign readings for the class at large, but will direct you to specific sections of the textbook based on your needs. I recommend that you also seek information proactively based on your understanding of upcoming assignments and your own skills. I may also distribute a variety of additional readings during this class, these readings will primarily be selected based on the needs of the class or the individual student.

Required Supplies: You will also need index cards and writing utensils for this class. Index cards are **the only** acceptable medium for any notes that you refer to during your presentation. This includes presentations as part of in-class activities. If you have notes on anything else (torn up scraps of paper, etc.) you will have to present without them.

Required Technology: You will need access to a recording device in order to practice, evaluate, and submit your presentations. The video camera included on the majority of modern cell phones works well for this task as does the web cam included in the majority of modern laptop computers. You will need access to a modern computer which is capable of running software that will allow you to create and modify written documents and presentation aids. Software commonly used for these tasks include Microsoft Word and PowerPoint, though there are other options. See the section on [technology issues](#) below for details about preparing and submitting files. You will need to have a flash drive to load any electronic presentation aids used during in-class presentations.

YouTube: You will be required to post videos of presentations to YouTube and share links to them through Moodle as part of this class. You are not required to post these videos to an existing account. Creating a separate account dedicated to this class is fine. YouTube videos may be set to **public** or **unlisted**, but **cannot be turned in if they are uploaded as private**. I recommend that you choose to upload your videos as “unlisted” videos. You may chose to switch the accessibility of these videos to “private” (recommended) or delete them (not recommended) once the presentation assignment has been graded.

Assignments and Grading¹

For every presentation you will:

1. Turn in a written outline of the presentation in pdf format
2. Record yourself delivering the presentation
3. Upload the recorded presentation to YouTube
4. Submit a presentation reflection

Presentation Topics

Presentation topics should be appropriate for a classroom of college-aged professionals. Students should not present on duplicate topics. You can claim topics using a forum in the course management system on a first-post basis. The first student who posts a topic will be allowed to present on it. **Any other students who present on the same topic will have their work graded for half credit.** For guidance on picking great presentation topics, see the [Presentation Topics](#) resource.

Challenges	Stars Available
Presentations	
→ Asynchronous	1x! ☆☆☆☆☆ 2x! ☆☆☆☆☆ 3x! ☆☆☆☆☆
→ Prepared Demonstration	1x! ☆☆☆☆☆ 2x! ☆☆☆☆☆
→ Prepared Support	1x! ☆☆☆☆☆ 2x! ☆☆☆☆☆ 3x! ☆☆☆☆☆

→ Peer Evaluations (these are averaged first)	1x! ☆☆☆☆☆ 2x! ☆☆☆☆☆ 3x! ☆☆☆☆☆ 4x! ☆☆☆☆☆
Extra Credit	
→ Extra Credit Reflection	☆☆☆☆☆

There are no exams or quizzes in this class.

How Stars Work

Your performance on challenges will be rated on one (or more) 6-star scales (☆☆☆☆☆). When multiple 6-star scales are used, they are averaged and rounded prior to applying any multiplier for the challenge.

Stars	You...	Your performance was...	Approximately...	You should...
☆☆☆☆☆	Are destined to triumph and glory!	Exceptional for a student at this level of study.	≈100%	Celebrate!
☆☆☆☆☆	Sailed through the challenge easily!	Quite good for a student at this level of study. You only had a small number of minor mistakes or deviations from what was covered.	≈A- / B+	Feel Satisfied!
☆☆☆☆☆	Met the challenge and were successful.	Acceptable for a student at this level of study. You performed as expected and did what was assigned without any major problems.	≈B- / C+	Keep on Trucking!

Stars	You...	Your performance was...	Approximately...	You should...
★★★★☆☆	Had a hard time with this challenge.	Barely acceptable for a student at this level of study. You followed directions but there was at least one major problem with the end product.	≈C- / D+	Consider seeing a tutor
★★★☆☆☆	Succeeded, but at great cost.	Not acceptable for a student at this level of study. You put in effort, but there were several major problems with the end product.	≈D-	Seriously, go to the tutor
★★☆☆☆☆	Failed.	Not acceptable, even for students below this level of study. You put in effort, but did not follow the directions, there were several major problems with the end product, or significant portions of the end product were missing.	≈50%	GO TO THE TUTOR!
☆☆☆☆☆☆	<i>Really</i> Failed.	Not turned in or it violated an important rule.	≈0%	Start turning things in or talk to me

You may occasionally earn penalty strikes (X). Each penalty strike cancels one star. Strikes may be earned for events such as missing a deadline, not following directions, or other significant violations. If a challenge has a multiplier, that multiplier also applies to any strikes earned.

Missing a Deadline

If you haven't turned in any work by the due date, you will automatically earn 4 strikes (XXXX). Fortunately, you have a special ability. You can activate "**slacker power**" at anytime during the 7 days after any due date you miss. "Slacker power" lets you submit the challenge late, and it is graded pass/fail this time! As long as your

work would receive an overall ★★★★★☆☆ rating, you will receive ALL of the stars for that challenge! “Slacker power” does not, however, remove any strikes. After 7 days, even your “slacker power” can’t save you. Work turned in after that will not be graded and will not receive any stars.

Absences that can be planned for, including school-sponsored events, do not excuse students from coursework due dates. In some rare cases an emergency may require you to miss class and turn in work after the assigned due date. These situations are handled on a case-by-case basis and, depending on the situation and documentation, this work may be assigned an alternate due date. Students whose work is turned in after the coursework due date (including work assigned an alternate due date) will not receive any feedback from the instructor beyond a grade. **No late work of any kind will be accepted after the last class meeting.**

Final Grades¹

Your final grade will be determined based on the total number of stars that you earned in the class. You can look this up at any time using the course management system. The ranges for each letter grade are based on the number of quality points Tusculum awards for each letter grade.

Total Stars	Letter Grade	Quality Points ²
175+	A	4.0 per semester hour
165+	A–	3.7 per semester hour
159+	B+	3.5 per semester hour
142+	B	3.0 per semester hour
132+	B–	2.7 per semester hour
126+	C+	2.5 per semester hour
109+	C	2.0 per semester hour
99+	C–	1.7 per semester hour
93+	D+	1.5 per semester hour
70+	D	1.0 per semester hour
0–69	F	0.0 per semester hour

Extra Credit

Students may earn up to ★★★★★★ extra credit by submitting a [Presentation Reflection](#) on a presentation that they give outside of this class during the current block. **Any presentation is acceptable** as long as it is in front of an audience of 5+ people, given during the current block, and not in this class. Presentations in other classes, presentations at your job, presentations as part of a club or other organization, presentations as part of a sport or volunteer opportunity, **even presentation opportunities you create for yourself because you are trying to earn extra credit** are all acceptable examples. Presentations you give as part of a team are also acceptable, as long as you personally speak in front of the audience during a reasonable portion of the presentation. This extra credit reflection is graded according to the same standards as all other presentation reflections. **Extra Credit may not be turned in after the last class meeting.**

Calendar¹

If you will be absent on a presentation day, you may turn in your presentation early by submitting a video of the presentation recorded outside of class in front of an audience of at least five adults (18+ years old). Students may only replace a limited number of in-class presentations with videos recorded outside of class. Presentations may also be turned in late by submitting a video of the presentation. Recorded presentations that are turned in late are graded as [late work](#). **Requirements for these recordings are very strict!** See the guidelines for [submitting presentations by video](#) for more information.

Course Policies

Bottom Line Up Front: You are an adult. I will expect you to act professionally and respectfully to other students and to me.

Access

All students have the right to an accessible environment and to be able to focus on their learning to the greatest degree possible. Students who think they would benefit from accommodation (seating placement, arrangements for examinations, exceptions to policies, etc.) should inform me at the beginning of the course and coordinate with the [Academic Resource Center](#) so appropriate arrangements can be made. Act early, because it is not possible to make accommodations retroactively.

Attendance

Attendance at every meeting of this course is required. The organization of the course means that you will learn a lot by observing and providing feedback to others. Attendance is required for the entire class session. Missing minor portions of a class meeting will result in being counted late. Being counted late twice is equivalent to one absence. Students who miss a significant portion of class will be counted absent. Students who leave class early will be counted late/absent depending on the amount of class that they miss. **Tusculum College attendance policy mandates that the fourth absence from class will result in a failing grade for the course.**

Official Absences: Tusculum College allows three absences for school-sponsored events, including collegiate sports (not practice). Planned official absences still count toward the maximum number of absences. Coordinate ahead of time to ensure that assignments are turned in on time. **Students are not excused from due dates that conflict with planned official absences.**

Emergencies: The handling of emergency absences will be evaluated on a case-by-case basis. Depending on **circumstances and documentation**, alternate due dates may be assigned. Contact your instructor as soon as possible to make any arrangements. Students whose absences are excused are permitted to make up course work, but **even excused absences count toward the maximum number of absences.**

Students in classes that meet online will be counted present if they complete all activities for the week prior to the beginning of the next work week.

Campus Emergencies and Inclement Weather.

There are two predominant types of emergencies: evacuation and shelter-in-place. I am familiar with the proper course of action in both cases, so please follow directions as appropriate. In addition the weather can be quite variable in East Tennessee. Inclement weather may result in the cancellation or delay/early dismissal of classes at one or more of the Tusculum College sites. Due to the nature of the focused calendar, these instances may significantly impact academic class time. Should any event result in the alteration of class meeting times, instructors will communicate to their students a plan for completing missed classes. Location-specific schedule changes will be communicated through the Tusculum College Pioneer Alert System and local media outlets as soon as possible. After an emergency or inclement weather, course requirements, deadlines, and grading percentages are subject to changes that may be necessitated by a revised calendar or other circumstances beyond the instructor's control. Information about course changes related to campus emergencies can be accessed through email and on the class schedule.

Grade Checks

Many students participate in university activities which require regular grade checks, including sports teams. If you need a signed grade check form, you need to prepare the form before class, filling out information such as the number of absences and current grade based on information available to you through course management systems. If you bring the form with the relevant sections already completed, I will sign it after class is dismissed. **I will not respond to grade check requests that are made by email and will not sign grade check forms that have not already been completed.**

Grade Disputes

You must wait 24 hours after receiving a grade to discuss it with your instructor. This ensures that you have the opportunity to prepare a solid case **with documentation and evidence** to support your claims. A meeting outside of the classroom should be scheduled with the instructor to contest a grade. I will not discuss grades

(good or bad) in front of other students, in the classroom before/during/after class, in the hallway, or if you run into me around campus or in town. I will not discuss student grades in the presence of other students, friends, family, etc. **Your grades and scores are considered final unless you initiate contact within one week of their return (or within 3 days of the last class meeting)**

Technology

We will often use laptops/tablets/phones or other personal electronic devices for class activities. Outside of these activities, you may not use electronic devices or leave them out – not even for such activities as checking the time, taking notes, or accessing copies of readings for the class. Research clearly shows lower GPAs and lower test performance are associated with increases in classroom cell phone use.³ Please silence electronic devices during class. The sound on my phone will be on during class in the event of emergency notifications. Wearing headphones during class will not be tolerated.

Studies show that students remember information better when they hand-write their notes⁴ and that, like second-hand smoke, using laptops in the classroom has negative effects on the learning of those around you.⁵ Nevertheless, if you will benefit from using an electronic device or require an exception to these policies for other reasons, please see the sections on [Access](#) and [Student Services](#). Additionally, students may have commitments outside of the classroom that require exceptions to classroom rules on electronic devices. Please contact me and the [Academic Resource Center](#) if you require an exception to any course policy.

Technology Issues

Using technology is an expectation of this course. **Issues with technology are not an excuse for late or missing work.** Anticipating, avoiding, identifying, and resolving these issues prior to due dates is your responsibility. Preparing and submitting materials at the last minute significantly reduces your ability to anticipate, avoid, identify, and resolve technology issues for many reasons, including the difficulty in getting assistance outside of normal working hours. For this reason you should not wait until the last minute to complete and submit assignments. **Your instructor is not tech support.** If you need assistance with technology, contact [Information Services](#).

Academic Misconduct

Academic misconduct is bad and will not be tolerated in this course. Tusculum has strong policies against academic misconduct. Anyone engaging in academic misconduct will be reprimanded and subject to disciplinary action which can result in a minimum of a ZERO on an assignment, but may include failure of the course, suspension, or expulsion from the college. Students are advised to become familiar with Tusculum's [academic policies](#) on academic misconduct, which can also be found in the Course Catalog (p. 39), which provides the following list of examples of academic misconduct:

- 1) Failing to identify direct or word-for-word quotations by use of appropriate symbols and reference to the source.
- 2) Restating in your own words the work (ideas, conclusions, words) of another without reference to the source.
- 3) Presenting as your own the creative work (for instance, music or photographs) of another without proper acknowledgment.

Besides plagiarism, other forms of academic dishonesty include the following:

- 4) Submitting the same work in two or more courses without significant modifications or expansion and without the approval of the instructors involved.
- 5) Submitting purchased, borrowed, copied or specially commissioned work as if it were one's own.
- 6) Knowingly permitting others to submit your work under their names.
- 7) Copying the work of others during an examination or other academic exercise.
- 8) Knowingly allowing others to copy your work during an examination or other academic exercise.
- 9) Using "cheat sheets" or any other unauthorized form of assistance during an exam, quiz or other academic exercise.
- 10) Manipulating or fabricating data to support erroneous conclusions.

NOTE: AUTHORIZED HELP is encouraged and includes:

- attendance at help sessions.

- tutoring received with your instructor's knowledge (responsible tutoring does not provide answers to specific assignments but focuses on general principles, concepts, rules and information, as well as on skills development).
- work with Academic Resource Center or Student Support Services staff done with the knowledge of your instructor.²

Note: Using images in presentations without citation and license is plagiarism and academic misconduct (items 3 and 5). Furthermore, using work without license may be illegal.

Students with Disabilities:

Tusculum College makes available to qualified students with disabilities those reasonable accommodations or services as are necessary to provide such students with unrestricted access to the learning environment and the opportunity to demonstrate academic achievement. In order to procure services or classroom accommodations, the qualified student is responsible for self-identifying and directing all requests for accommodations or services to the [Academic Resource Center](#) counselors. Contact information: Academic Resource Counselor; 423-636-7300, ext. 5153; Suite 412, Niswonger; learningsupportservices@tusculum.edu; <https://home.tusculum.edu/gps/disability-accomodations/>.

Research Assignments and Library Resources:

To ensure that residential candidates become fluent, competent users of information, faculty develop assignments that incorporate research that requires using the information resources available in the TC Library or from the TC Library website: <http://library.tusculum.edu>. Librarians are available to candidates in their research. Several of the online resources may also be accessed from home with a username and password provided by library staff. For more information, contact: Crystal Johnson, Education Librarian NE & Webmaster, (423) 636-7320; 1-800-729-0256, extension 5801, cjohnson@tusculum.edu. In Knoxville, contact Mary Halliburton, Knoxville Library Administrator, at (865) 693-1177 or (800) 729-0116, extension 5016, mhalliburton@tusculum.edu.

Tutoring:

Free tutoring is available for students during hours set up by the TC Tutoring Center located in the Garland Library. Students should familiarize themselves with tutoring services, hours, and location; this information can be found at: <http://web.tusculum.edu/tutoring/>.
